26th October 2005

Re Dr Clive Hathaway Travis

I had the great pleasure of having Clive speak at the first Recovery Conference for Bedford and Luton Partnership NHS Trust in April 2005

His presentation was entitled Recovery from a Service User Perspective.

His style of speaking captured the attention of everyone in the room. Clive was very open and honest about his mental ill health experiences. He was both articulate and charming. The content was emotive and very informative.

I hope to be working with Clive in the near future to bring recovery to the student nurses at University of Luton.

I also hope he will accept my invitation to speak at next year's conference in April 2006.
