To Whom it May Concern

Clive Travis has been teaching on our Approved Social Work twice a year course for the past three years. One of the reasons we employed him is his ability to convey the experience of users in a way that is non threatening to ASW/AMHP students while enabling comprehension of some of the reasons that make users reluctant to accept what is offered.

Clive has put together a presentation that holds the attention of students. His teaching style is interactive enabling full participation of all attending the course. I have no hesitation in recommending him to train mental health staff.
